Author Index of Volume 15

Arslanov, V. V.,
Adhesive joints of light materials with polymers, 1
Modified epoxy polymers used as adhesives. Part 1. Structure of epoxy polymers modified with reactive amphiphilic monoepoxy esters of fatty acids, 149
The effect of water on the adhesion of organic coatings on aluminium, 355
Improvement of the resistance to water of an adhesive joint between polymers and aluminium by using thin adhesion layers, 365

Bauer, D. R.,
Photostability of acrylic/melamine enamels. Effect of polymer composition and polymerization conditions on photo-initiation rates, 197
Rapid, reliable tests of clearcoat weatherability: a proposed protocol, 209

Biegańska, B.,
Anticorrosive water-borne paints, 33

Bierwagen, G. P.,
The science of durability of organic coatings: a foreword, 179

Blandin, H. P.,
Modelling of drying of coatings: effect of the thickness, temperature and concentration of solvent, 163

Braun, J. H.,
Titanium dioxide's contribution to the durability of paint films, 249

Briggs, L. M.,
see Bauer, first entry

Bulgakov, V. Ya.,
Properties and applications of anticorrosive coatings from secondary thermoplastic materials, 57

Casella, M. L.,
Solvent evaporation rates measured by gas chromatography, 73

Castells, R. C.,
see Casella

Chalykh, A. E.,
see Arslanov, second entry

Chertok, F.,
A novel coating based on poly (etheramine-quinone) polymers, 63

Croll, S. G.,
Quantitative evaluation of photodegradation in coatings, 223

David, J. C.,
see Blandin

Defrecheux, N.,
Solubility of epoxy resins, 83

Deinega, Yu. F.,
Simultaneous electrodeposition of polymers and metals, 291
